The proof of the pudding

Webinar - EMODnet
A decade of achievements
connecting marine data to knowledge

Iain Shepherd
Directorate General for Maritime Affairs and Fisheries

European Commission
centuries of charting for navigation
I have recently been developing a storm surge model and was originally using the NOOS bathymetry, and finding considerable errors in the phase speed of the tide. I then ran a test using the EMODnet bathymetry and found this massively improved things.

Rachel Furner  Surge Modelling Scientist, UK Met Office
3 lessons learnt

• data collected for one purpose can be used for another
• open data can lead to unforeseen benefits
• EMODnet couldn’t have happened without EU but contribution of neighbours is important too
Your gateway to marine data in Europe
